

CORONAVIRUS COVID-19

GET THE LATEST INFORMATION:

You may be feeling concerned about the coronavirus. Here's some important information for you.

To protect yourself and your loved ones:

Avoid close contact with people who are sick.

Wash your hands with soap and water regularly. Alcohol hand sanitizers are also effective.

Try not to touch your eyes, nose, and mouth with unwashed hands.

Cough or sneeze into a tissue or your elbow. If you use a tissue, wash your hands afterwards.

Stay home when you are sick (and keep sick children home from school).

Clean and disinfect frequently touched objects and surfaces.

IF YOU ARE SICK:

Staying home to take care of yourself is one of the best ways to avoid spreading illness.

If you need medical advice, ask your primary care provider, call your clinic or medical home or ask someone here to help you find answers.
